School of Engineering, Science & Health

3 Years Full-Time Degree | NQF Level 7
360 Credits | SAQA ID: 91996 | BPH0701

→ Ruimsig

Qualification description

The IIE Bachelor of Public Health is a multidisciplinary and flexible Degree that provides students with the opportunity to learn and apply key principles of Public Health leading to a wide range of careers.

On completion of the Degree, future opportunities include application for studies in related fields including for example The IIE Bachelor of Public Health Honours and The IIE Postgraduate Diploma in Public Health.

Who is this qualification aimed at?

The IIE Bachelor of Public Health is aimed at individuals who are passionate about improving health outcomes and tackling pressing health challenges in communities and populations.

It is ideal for school leavers and aspiring health professionals who seek a multidisciplinary education that combines theory with practical experience.

The programme suits those interested in careers across government health departments, NGOs, international health agencies, research institutions, and private-sector health initiatives. It also appeals to students who value global perspectives, community engagement, and the opportunity to work with diverse stakeholders to create meaningful health impact.

Further Study Pathways

For the Faculty of Science & Technology, School of Engineering, Science and Health, graduates of the Bachelor of Public Health may be eligible to apply for The Bachelor of Public Health Honours and the Postgraduate Diploma in Public Health, subject to meeting admission requirements.

Career Opportunities

The IIE Bachelor of Public Health prepares graduates for a wide range of impactful careers dedicated to improving health outcomes and addressing critical public health challenges.

Career opportunities include roles such as:

- Public Health Officer (developing and implementing health programmes within government departments)
- Health Promotion Specialist (designing and delivering community health education initiatives)
- Epidemiologist (analysing data to track and prevent disease outbreaks)
- NGO Project Coordinator (managing health-related projects in non-profit organisations)
- International Health Programme Officer (working with global agencies to address cross-border health issues)
- Public Health Researcher (conducting studies to inform policy and practice)
- Health Policy Analyst (advising on evidence-based policy development)
- Community Health Advocate (engaging communities to promote well-being and health equity)

Timetables

This qualification is aimed at students who wish to complete full-time face-to-face studies for the duration of their qualification. This means that students are expected to be available Mon-Fri 8:00 - 17:00 throughout the day for class in the academic year depending on how the timetable is structured.

Students must also note that timetables remain subject to change throughout the academic year.

Graduation and Completion Requirements for This Qualification

In order to be awarded this qualification, you must have achieved a minimum final year mark of fifty percent (50%) for all 24 modules in the curriculum.

As a contact student, this qualification is structured to be completed over 3 years. The maximum time for completing a qualification full-time is double the minimum time associated with the qualification.
